Career Launcher

Ahmedabad

Institute Management Platform

CAT | CLAT | IPMAT | GMAT | CUET | Boards

clahmedabad.onrender.com

Digital Platform Overview

What is it?

A full-stack web application that replaces spreadsheets & WhatsApp chaos with one unified, intelligent coaching platform.

6+	2	12+	1
Exams	Users	Features	Platform

- Course catalog — CAT, CLAT, IPMAT, GMAT, CUET, Boards
- Scholarship test engine with PDF certificate
- Razorpay integrated payments
- Anti-cheat exam security

Current Challenges in Existing Website

Problems that prompted a unified digital platform

Spreadsheet Chaos

Student data in disconnected spreadsheets — error-prone & unscalable

WhatsApp Overload

Groups for communication — no structure, no tracking, no accountability

Manual Lead Follow-up

Prospect inquiries handled manually — leads lost, revenue missed

No Online Payments

No integrated payment system — fees collected offline only

No Student Portal

Students can't self-serve — no dashboard, no downloads, no test history

No Scholarship Automation

Scholarship tests & certificates handled manually — slow & inconsistent

All these problems are solved by the new unified platform at clahmedabad.onrender.com

Market Opportunity & Digital Shift

India's competitive exam coaching market — a massive, underserved digital opportunity

6

Exam Verticals

CAT · CLAT · IPMAT
GMAT · CUET · Boards

Students

Competitive exam aspirants in India

∞

Scalability

Cloud deployment on Render & Heroku

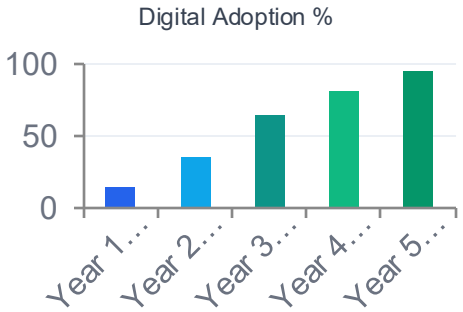
BEFORE

- Spreadsheets & WhatsApp
- Manual enrollments
- Offline payments only
- No student self-service

DIGITAL SHIFT →

AFTER

- Unified web platform
- Self-service enrollment
- Razorpay online payments
- Student dashboard & admin



Opportunity: Institutes that digitize operations convert more leads, retain more students, and scale faster — Career Launcher Ahmedabad is positioned perfectly with this platform.

Proposed Solution Overview

One unified platform — replacing the patchwork of tools with intelligent automation

Admin Module Coverage

Students · Courses · Payments · Leads CRM · Blog · Resources · Faculty · Settings

- Dashboard snapshot: total students, enrollments, leads & payments at a glance
- Lead CRM with WhatsApp deep-links — instant pre-filled follow-up messages
- Razorpay signature verification — tamper-proof, zero-trust payment flow
- Dynamic site settings — update contact, social, WhatsApp without redeploying
- Analytics charts: leads, enrollments, and payments over time
- Content Security Policy + HTTPS enforced — security-first production architecture

Future Vision & Scalability

A strong foundation — engineered for tomorrow's growth

Phase 1
✅ LIVE

- Course catalog (6 exams)
- Scholarship test engine
- Anti-cheat exam security
- Razorpay payments
- Student dashboard
- Full admin panel
- Lead CRM + WhatsApp

Phase 2
🔧 IN PROGRESS

- pytest test suite
- Docker / docker-compose
- OTP login & password reset
- Batch schedule calendar UI

Phase 3
🚀 PLANNED

- Student progress analytics
- Email campaign / bulk notify
- Result & rank leaderboards
- Mobile app API layer
